

2020 Speech Processing Courses in Crete

VIRTUAL

Summer School in Speech Synthesis

Neural approaches for speech enhancement,
synthesis, and coding

Waveform
ReLU Dilation Text
Filterbank WaveRNN
Layers Regression RNN
Learning Enhancement Modeling Mel
Coding Embeddings
Attention Source-Filter Synthesis DNN
Speech Features Encoders Compression Vcoders
TTS Spectrogram Seq2Seq
End-to-End Deep
Generation CNN
Wavenet

27-31 July 2020

Computer Science Department
University of Crete
