Poster Sessions

Poster Session I		
Máté Attila Tóth	University of Basque Country, Spain	Explaining Consistent Word Confusions in Noise: a `microscopic' Approach
Nemanja Cvijanovic	Philips, Netherlands	On the Use of Ultrasound in Speech Enhancement
Anna Roubelaki	FORTH, Greece	Learning neighborhoods of High Confidence in Contraint Based Causal Discovery
Poster Session II		
Maria Koutsogiannaki	University of Crete, Greece	Intelligibility Enchancement of Casual Speech
Olina Simantiraki	University of Crete, Greece	The Importance of Phase on Voice Quality Assesment
Dora Yakoumaki	University of Crete, Greece	Analysis of Emotional Speech Using an Adaptive Sinusoidal Model
Andreas Koutrouvelis	Delft University, Netherlands	Frequency Based Estimation of the Opening Phase of the Glottal Flow
Poster Session III		
Antigoni Tsiami	NTUA, Greece	Acoustic Source Localization in Smart Home Environments Using Microphone Arrays
Isidoros Rodomagoulakis	NTUA,Greece	A Distant Speech Recognition System for Smart Home Environments with Microphone Arrays
Nikos Papadakis	Technical University of Crete, Greece	Time Domain Finite Element Method for Calculation of Impulse Response of Enclosed Spaces. Room Acoustics Application
Poster Session IV and Demos		
Despoina Pavlidi	University of Crete, Greece	ImmACS: An Immersive Audio Communication System for Spatial Audio Recording and Reproduction
Tasos Alexandridis	University of Crete, Greece	Localizing and Isolating Sound Sources in a Wireless Acoustic Sensor Network
Anthony Griffin	University of Crete, Greece	Speech Intelligibility in Noise
Kayoko Yanagisawa ,Senthil Chandramohan, Yannis Stylianou	Toshiba CRL, UK	Demos from Toshiba CRL on Expressive Speech Synthesis and Intelligibility of Speech
